Got the words all in my mouth but I can't seem to let them out

Regardless of all I want to say

Have my photos here at hand with every memory in tact

Holding tight so that they can't escape

Just tell me that you're proud and you'll always be around

Despite of anything that comes between us

I need to hear you say that when I leave this state

That our love will overcome all of our demons

I need some reassurance

Motivation to pursue this

I'm walking out now

Please don't forget me

I'm not holding up, it's breaking me down

To know that I'm leaving and I won't be around

I'm missing your voice, your beautiful smile

But I feel better knowing that I'll be with you in the days ahead

I've been knocking on the sky and I've been listening for the sound

Another day, another chapter, another chance to get it right

Yeah, I've been hoping for a sign, something true and so alive

To resonate the answers that I'm needing

Here's to the best years that I've never known

I'll know you'll be there every step of the way

I've never been this scared before

But when I think about the love I've felt with you

Every doubt just fades away
