\*WORK YOUR MOJO TONIGHT\*

I got a message by email  
Looks like I'll be busy tonight  
My Lady's message said "don't fail  
...to come and do your duty right"  
She feels really stressed out  
She had a very rough day at work  
So she's calling me over  
To relieve her tension and hurt

Chorus:

((: She said to come and work the mojo  
Give me that good mojo  
I want your sweet mojo tonight  
Show me that good mojo  
Give me all your mojo  
I need my Baby's mojo tonight:))

I dropped everything I was doing  
Had to move like a doctor on call  
Emergency service...  
Must be placed paramount above all  
Of course, I have vested interest  
I know the subject so very well  
Plus, she showed good judgment  
As far as I could tell...when

Chorus:

((:...:))
