You stole the air right out of my lungs,
But keep it for yourself cause' you're gonna need it.
For all the times I'll take your breath away
And I, I can't wait to see the look on your face
When I, I say exactly what I came to.

Just the shame that I've always wanted.

So stop me now before they see us.
Even if its too hard to take all at once,
And I try and I try to never interrupt what you've got
going,
And I try and I try to stay out of your way, stay out of
your way.

You took the words right out of my mouth,
Your best work yet thus far,
And how can you stand there and tell me
That im so dramatic, you're so dramatic.
And I, and I can't wait to see the look on everyone's
faces
When they finally find you out.

Just the shame that I've always wanted,
Just the shame that I've always...

It means more now than I ever thought it would mean,
I won't always think of you.
