

## Schandmaul

### "Coreopsis"

Visit "[Coreopsis](#)" on MotoLyrics.com

To swallow the bass, or bust up the place  
To walk in the grass, or kiss that fat ass

You're way out in the galaxy now,  
You're way out now

Corellian delay with migraine follows  
Smell my little  
Coreopsis

Like walking in blue with roller skate shoes  
My artery clogs up with your fatty tissues  
You're way out in the galaxy now,  
You're way out now

Was silence saw you there with mustard pellets  
Smell my little  
Coreopsis

Is the hardest thing to say  
When you can't find under blankets on the bed  
Hide your head
