So you think...you're special
You think you're...my number one
You must be...mistaken
I only wanted you for fun

You think I'm...just teasing...but I am deadly serious
You'll never...be more than...a button...I like to
push...sometimes
Sometimes!

I could lie awake for hours
Try to tell myself this matters
but you're not that precious baby and I don't think that
you can save me

Well I find you amusing
You're alive, you're nothing more
I don't mean to...confuse you...but I don't want you
anymore!

I'm sure that...I'll see you...if you are passing this way
don't think that...I'll miss you
No matter...what I might say
Might say!

I could lie awake for hours
Try to tell myself this matters
but you're not that special baby
and I don't think that you can save me
