And did you ever get so angry
You could feel it in your fingers
And you think that if you had a gun in your hand
You're sure to pull the trigger
I get like that some times
I get like that some days
Some days i get like that
Some days
It seems the slightest things sends me over the edge
And i've no control over the things i feel
Or any other things i seem to say these days
I get like that
Some days
Some days i get like that
Some days
Especially these days
Some days
I get like that
Some days
Some days
I get like that
Some days
Maybe i'm a little bit mad
Or even slightly crazy
But i think the thing that scares me most
Is that thoughts like these are inside me
These days
I get like that somedays
Some days
I get like that
Some days
Some days
