I've heard every kind of love song,
Cried unrequited tears,
I've lived all the lines for so long,
But never felt you near.

And I listen to my radio,
Every record in the chart,
When you said 'be my baby'
It made the fires start.

Now that's what I call music,
Music to my heart,
Now that's what I call music,
Music to my heart.

(Call music, music,
I call music, music to my heart,
Music to my heart.)

And I've moved to every rhythm,
And danced to every beat.
All the hits I've sung along to
Never really got a hold on me.

All the time I've ever known you,
Never thought we'd come this far.
When you said that you even cared,
Well, that was music to my heart.

Now that's what I call music,
Music to my heart,
Now that's what I call music,
Music to my heart.

(I call music, music,
I call music, music to my heart,
Music, music to my heart.)

Music.

I've heard every kind of love song,

Cried unrequited tears,
I've lived all the lines for so long,
But never felt you near.

And I listen to my radio,
Every record in the chart,
When you said 'be my baby'
It made the fires start.

Now that's what I call music,
Music to my heart,
Now that's what I call music,
Music to my heart.

(I call music, music,
I call music, music to my heart,
I call music, music,
I call music to my heart.)

Now that's what I call music,
Music to my heart,
Now that's what I call music,
Music to my heart.
