How do you feel now  
We've got a reason to go on  
Newly born  
Seems like i've waited for a lifetime  
But honey i believed in you

When i saw her face i had to cry  
I don't know why  
Is she real?  
Seems like i've waited for a lifetime  
But honey i believed in you  
To make my dreams all come true  
We've got a child

I tried and tried to talk it over  
Seemed like we'd waited a million years  
Then you conceived our child was born  
And we were one  
Picked her up put her by your side  
Saw a smile that you couldn't hide

I tried and tried to talk it over  
Seerr.ed like we'd waited a million years  
Then you conceived our child was born  
And we were one  
Picked her up put her by your side  
Saw a smile that you couldn't hide

How do you feel now  
We've got a reason to go on  
Newly born  
Seems like i've waited for a lifetime  
But honey i believed in you  
To make my dreams all come true  
We've got a child
