Down there...  
Into the astral world  
Esoteric halls with grey hungry eyes...  
Demons one step behind...

The moon(s) - so suggestive...  
Thoughts - so obedient...  
Night - so silent...

How sweet is slow suffering in solitude...  
Silence is a deaf yell...  
Scream is a dead pure silence...

"Facilis Descensus Averno"

Metalic taste Absinth  
Unleash the Spirit...  
Hedera Helixxx into unknown...

"It's possible - to taste the rest no more from this  
incomprehensible duality,  
Which lacerates me, which sense I don't understand  
and which relates to all in me:  
Thoughts, emotions and senses? "
