Come into our fantasy
Veltering in blasphemy
Ordinated with secrecy
Evil one of us
And what you have seen
Is what you shall be
Through awake through the dream
Blood and dead will gleam

Thousands of prayers haven't effect
Time after time is has repeated
Priests hiding behind the christ
Spreading those immortal lies
Like a fume to the sky
Within the sun spirit evaporates
The curse of buried hearts

Deserted and dishonoured
By lord who is dead
How many time
Human must be humiliated
What's the crime

For what we must die
... For what we must die...

Utter spirit, in damnation
The sacred legend
Of crucifixion

They cried your will to the sky
At the mountain of madness

The way to avenge with torture
Is to be slayed by love
And death is the way to live
At the day we die we'll be
The angels of graves

Don't look back after that portal
You have no place to your remorse

I've seen your face in celesty
Our fallen infernal majesty
Shining from enigma
Come within us Satan
