What are you waiting for  
Pick up your phone  
Pencil me today  
In your agenda

Come out from your safe zone  
Walk to your door  
There might be a good thing or two  
Waiting for you

We're all in the dark  
And the only guide  
Is the whispering sound  
Of heartsbeat  
We're all in the dark  
Can you feel my heart

We are blind we are blind in life  
But we should give it a try  
Why don't we give it a try  
For love

And I will run I will run  
Cause I just want to give it a try  
Should always give it a try  
For love
