"Can I Help You Baby"

Visit "[Can I Help You Baby](#)" on MotoLyrics.com

I have a reason to stay here
There's a way to find a flame
Make up your mind and that's the real
Competition

Can I help you Baby
Can I help you for this night
Can I help you Baby
If you try to survive and you want to be fine

You never call me in the night
Don't you hear me in the day
I never find you in the light
Tell me something, tell me now

You ask me why you never smile
There's a shadow in your life
Forget your troubles for a while
I will show you, close your eyes

Can I help you Baby
Can I help you for this night
Can I help you Baby
If you are not so blind and you find in your mind

Can I help you Baby
Can I help you Baby

Uh Oh Oh Oh Oh
Uh Oh Oh Oh Oh

Can I help you Baby-y-y-y-y
Can I help you Baby-y-y-y-y

You never call me in the night
Don't you hear me in the day
I never find you in the light
Tell me something, tell me now
