I
You can shove that old one up your arse
I
You can shove that old one up your arse
I
You can shove that old one up your arse
I
You can shove that old one up your arse

Ya say hey hey how ya doing
But ya won
So ya pay Jay Jay cos he
Ya don

Ya say hey hey how
But it
So you pay Jay Jay cos he
You don

Here comes the rain once again
Falling like there
Here comes the pain once again
Danny, there may never be a tomorrow

Santa Claus has gone and fucked off
You
Too much drink at your New Years Eve party
Well I hope your resolutions will sustain

Ya say hey hey how
But ya too drunk drunk to concentrate
So ya pay Jay Jay cos he
Ya don

Ya say hey hey how
But ya

Here comes the rain once again
Falling like there
Here comes the pain once again
Danny, there may never be a tomorrow

Santa Claus has gone and fucked off
You
Too much drink at your New Years Eve party
Well I hope your resolutions will sustain

I
You can shove that old one up your arse
I
You can shove that old one up your arse
I
You can shove that old one up your arse
I
You can shove that old one up your arse
I
You can shove that old one up your arse
I
You can shove that old one up your arse
I
You can shove that old one up your arse
I
You can shove that old one up your arse
