

## Schilling Peter "Lone Survivor"

Visit "[Lone Survivor](#)" on MotoLyrics.com

designed to face the most determined weapons is a  
fortress made of steel  
inside the airlock, even the water is recycled every year  
outside the walls, the world is self destructing but this  
clever man lives on  
for safety he rejects communication so that no one will  
detect his home  
locked away from the danger isolated for the rest of  
his life  
he's the lone survivor, in his life machine  
takes his daily helpers, safe and inside his dream  
the war is over but the radiation is destroying all  
mankind  
a new discovery by the great computer will it rescue us  
in time?  
locked away from the danger isolated for the rest of  
his life  
he's the lone survivor, in his life machine  
takes his daily helpers, safe and inside his dream  
he's the lone survivor, in his life machine  
takes his daily helpers, safe and inside his dream  
around the world the people understand and are  
correcting their mistakes  
nobody knows about the lone survivor so there can be  
no escape  
locked away from the danger isolated for the rest of  
his life  
he's the lone survivor, in his life machine  
takes his daily helpers, safe and inside his dream  
he's the lone survivor, in his life machine  
takes his daily helpers, safe and inside his dream  
he's the lone survivor, in his life machine  
takes his daily helpers, safe and inside his dream
