Wizards and witches are kissing the ram of the
sabbath,
Down below, contesting the church of the priest

Black is the sky without moon tonight - down in the
Town cry children with fright
Universe know there's nothing to do - like centuries by
Now witchcraft is on you

Black night, black night, black night, here comes the
Devil's fight
Black night, black night, black night, here ends the
Witches flight

Depths of the wood where your god can't command -
Demons and witches and proudly they stand
Dancing and sucking and fucking them all - in front of
The master your whole world shall fall

Black night, black night, black night, here comes the
Devil's fight

Black night, black night, black night, here ends the
Witches flight

Going in circle, taking their hands - invoking the
Devil awaiting commands
Exploding the madness and chiming the bell, chanting
The song in the honour of Hell
Destroying the humans blaspheming their gods -
pissing
In holes and treading their cross

Black night, black night, black night, here comes the
Devil's fight
Black night, black night, black night, here ends the
Witches flight

Wizards and witches are kissing the ram of the
sabbath,
Down below, contesting the church of the priest

Pagans,
Heretics worshipping Hecate of Hades, ancient religion
Existing before the Christ
