Hey, listen closely, don't hang up  
There's something you should know  
About particular circumstances  
'Bout yesterday night show

Miranda called me, she was sad  
For you'd kicked up a row  
You were in a very jealous mood  
Announced once more to go

Refrain:  
Tell me, tell me, don't you see  
You need love  
Like the air that you breathe

Tell me, tell me, don't you see  
You're a fool  
In love can't you see what I'm sayin'  
Again and again and again

We had a date at half past nine  
At club called "golden pearl"  
The she got high from drinkin' wine  
While I tried to comfort her

And just before you reached the bar  
She embraced me feeling blue  
You crushed a chair and did your stuff  
While you cried: "I'm through with you!"

Refrain:  
Tell me, tell me, don't you see  
You need love  
Like the air that you breathe

Tell me, tell me, don't you see  
You're a fool  
In love can't you see what I'm sayin'  
Again and again and again
