"Revolutionary Sympathies"

Visit "[Revolutionary Sympathies](#)" on MotoLyrics.com

I don't mind well I don't mind just take your time
There's a choice for everyone who's making noise
But I'm just a lonely boy and you're that kind of girl
Who try so hard to make it in this world
And we're holding on we got to be so strong
I see your face as it lights up the human race
You should care cause I would love to bring you there
But I'm a lonely boy and you're that kind of girl
Who try so hard to make it in this world
And we're holding on we got to be so strong
Just let the boat get rocked we're using all the power we
Got
To make this planet free I have revolutionary
sympathies
I don't mind well I don't mind just take your time
There's a choice for everyone who's making noise
But I'm a lonely boy and you're that kind of girl
Who try so hard to make it in this world
And we're holding on we got to be so strong
