Attendant: "That takes a fourteen shot clip
You expecting an army?"
Serpico: "No....just the division"

[Barron Ricks]
"Yeah, once again, (that's right)
We about to attack this
(Harlem Inc, Murder Inc) Yeah
(Nicky Bond)
Jimmy Cagney type shit, Nicky Santoro
All my little short niggaz
Joe Pesci and all that shit like this yo"

Fillin out the cards to your eulogy
Murder that ass, send my regards to your family, fuck
it
That's what niggaz get for fuckin with this maniac
depressive nigga
with aggresion, Smith and Wesson, in his possession
Harlem got me like that, too many grimy, slimy niggaz
on the take
For short cake, we won't hesistate
I miss inhabitants who politic in residence for
presidents
Across 110th, to 55th
My covenant is protected, I'm doministic
Survival principles my ethics, eastern philosophy's my
method
Good samaritans need paremedics, so what's your
premise
I hope you fuckin with Glocks and fo' fifths
Wrath's Napoleon, so teach your origin, slash wrists
Shatter chins, and bust clips
Check it, "here is somethin you can't understand"
Steel Magnolia

[B-Real]
I got the steel magnum, braggin, leavin my toe tagged
As I get raggamuffin, no bluffin, the body bagged
Breaks all your bad habits, bad blood fanatics
Clean up the magic, chrome startin up static

Greed means that you die quick, click the vision
Greed lies ambition, five slugs for the mission
Seven cause you go to the heaven or hell and dwell
to meet your maker, but you met the shotgun shell
Buckshots sting like bees, I smoke trees
on the hilltops, clubshops and chilling overseas
Take in the breeze, Mr. Freeze squeeze the trigger
Killa G's got you week in the knees, to take it ea-sy!

[Barron Ricks]

Steel Magnolia

Magnificent guns bust when 'Uzi Weighs a Ton'
And yo' Glock spits, consecutive rounds shot from clips
spells murder, sound synonymous to burner
Leave niggaz ass up, gaspin for air, front seats of truck
So who the fuck want me to press on they luck, bastard
they son
When gats start to hum and whole crowds begin to run
Annihilation, destroyin all expectations
Have relatives embrace your Harlem hospital, we all
patient
5 foot 6, concealed steel, pop more grip
With fixed sights that drifted to right, triggers light
So relinquish son, I'm to the finish, and you
acknowledge
Couldn't pop a clutch or light a skyrocket, nigga stop it!
Steel Magnolia

[B-Real]

Steel Magnolia, bury ya, six niggaz carry ya
To your final rest area
What you worried though, you ain't above that with a
slug
And your chest beats, blowin out your back, take it easy
To your eulogy, open heart surgery
Emergency, 911, come in a hurry
From the Hills to the Polo realms, stackin the bills
I put you under my lo-lo, hit my switch, then kill
A bitch nigga steppin on my toes, fuck foes and hoes
Get stuck in the ass like Pete Rose
I suppose you wanna get wild and throw blows, you
chose
to get you nose your broke, in a thick cloud of smoke
You're like a fat joint, I'm takin a toke, I'm like coke
But you ain't smilin, feelin erratic, a fuckin addict
To the dope shit, you better hope the shit stop
Smooth, holdin the Glock, rockin the hot shit
