For three strange days  
well i had no obligations  
my mind was a blur  
I did not know what to do  
and I think I lost myself  
when lost my motivation  
and now im walkin round the city  
just waiting to come to  
for three strange days

For three strange days  
well I couldnt put a smile on my face  
so they dressed me up in all of thier clothes  
and took me somewhere else  
and Johnny Clueless was there  
with his simulated woodgrain  
simulated woodgrain  
so I pulled up a chair

and started drinking by myself  
for three strage days  
(lick)  
for three strage  
(lead)  
and I got to make it through  
nomatter what it takes  
and ive got to make it through  
three strange days

well I layed down for a while  
and I woke up on the ocean  
floating on my back  
and stareing at the break  
it was completely still  
except for the pounding of my heart  
was bringing me back to life  
from three strange days 2x
