You have to know that it was never you babe
That ever faded, from my heart
I lost my light when I lost you
And I will never find it
Unless you want me to, I'm begging you
Please, believe in me
Don't let this go, don't let me go
Cause I don't know what I would do
Don't let me go,

[Chorus]
Nothing will ever change
How much I miss you, nothing
And I won't do anything
To take the pain away
Please stay, babe

My promises, address so hard
To keep myself together, yeah
And fell so far
And now this love is just a ghost
You know, so please, believe in me

[Chorus] x 2
Nothing will ever change
How much I miss you, nothing
And I won't do anything
To take the pain away
Please stay, babe.
