

School of Seven Bells

"No Idea"

Visit "[No Idea](#)" on MotoLyrics.com

Do you fear loneliness?
Do you fear getting left behind?
All your friends are getting married
They have a good time
And you fear commitment
Oh you never wanna get tied down
Run wild like a child in the wilderness
Till the sun goes down

And you ask your friends
And I ask mine too
And they got no ideas about me and you

Do you remember feeling like everything was gonna work out?
Beaches in the summer in the sunshine and no doubts
Forget about the beaches, the summer and the sunshine too
Cause winter's got her way through and punches
It's turning black and blue

And you ask your friends
And I ask mine too
And they got no ideas about me and you
About me and you
