O where me keys, o where me phone?
O where me keys, o where me phone?
O where me keys, o where me phone?
O where me keys, o where me phone?

Have you ever been in that situation
Where you lost your keys and your mobile phone?
Have you ever been in that situation
Where you lost your keys and your mobile phone?
Hands in your front and your back pocket
Moving things like you're demented
Can't remember where you put it
And you're hot, and cool, and frustrated

O where me keys, o where me phone?
O where me keys, o where me phone?
O where me keys, o where me phone?
O where me keys, o where me phone?

(?)
Yo I'm late for the bank
Yo I'm late, I'm late
I say you just understand
Just let a rabbit outta Wonderland
(?) for me keys and me mobile phone

O where me keys, o where me phone
O where me keys, o where me phone
O where me keys, o where me phone
O where me keys, o where me phone

Yo Alisha, give me a ring, I say I can't hear a thing
Ah where I was last night
Yo in a big fight
I was at job last night
O where me gyal where me-

O where me keys, o where me phone?
O where me keys, o where me phone?

O where me keys, o where me phone?
O where me keys, o where me phone?

My whole life is in that zone
I can't find me keys and me mobile phone

O where me keys, o where me phone?
O where me keys, o where me phone?
O where me keys, o where me phone?
O where me keys, o where me phone?

Have you ever been in that situation
Where you lost your keys and your mobile phone?
Have you ever been in that situation
Where you lost your keys and your mobile phone?
Hands in your front and your back pocket
Moving things like you're demented
Can't remember where you put it
And you're hot, and cool, and frustrated

O where me keys, o where me phone?
O where me keys, o where me phone?
O where me keys, o where me phone?
O where me keys, o where me phone?
