"Taming The Iguana"

Visit "[Taming The Iguana](#)" on MotoLyrics.com

blame the bankers and I blame the politicians
but I give 'em power when I spend
and I am the one who voted them in
My world is fear and greed yeah
I've got no room for your Maslow needs
it's a primal cortex that drives us
Globalization, modernization, civilization, exploitation
taming the iguana me taming the iguana
Excessive consumption,
my tongue can reach 10 different time zones
Making war, making love, making bacon
status quo for the reptilian
slow changing, money making
Civilization, Modernization, a grander scale of
exploitation
Taming the iguana in me
I've been fearful and greedy,
selling subprime and needing a fortress what's mine
