"White Light"

Round and round it goes
And another common day is passing
Thru the morning falls
Into the night and nothing changes

The revolution is up to you
Get down to live another life
The hidden force that gets you thru
The dark until you find it

White light all around
I know you see the white light
Sun shine deep insi-ide

And ev'rybody's gonna see you're right
There is a white light all around
I know you see the white lighte
Sun shine deep insi-ide
And ev'rybody's see you're all right

So you can be free
If you find a way to reach your heaven
Where the light will be
Over again so you can go now
