Ok, let's see, I guess that I'll be brief  
It seems I've come to hate your guts  
When did you become a girl so thoroughly  
So goddamn thoroughly stuck-up

I know I'm not as smart as you  
But you must accept  
That I'm not fucking dumb  
Don't care about your chemistry  
Don't need your pointless trivia  
Pursuing me to twist my tongue

[Chorus:]  
From enemies to friends  
It seems this friendship's reached its end  
From enemies to friends  
I've started hating you again

Ok, let's see, I guess that I'll be brief  
You're fucking boring as a book  
It seems to me your big mouth can't shut up  
Never realized how dumb you look

[chorus]

You're not a sophist  
Just a text-savvy brat  
No one's told you different  
You'll go on thinking that  
[x2]

[chorus]
