On the outer limits, he will walk alone [x3]
He will walk alone

I can't believe the way he's vibing me
With his mechanical arms and legs and feet
I can't believe the way he's vibing me
Can't you see this angry robot's got a problem with me?

He's got a problem [x4]

I stand here all alone
All by myself
Oh my god
I haven't slept in days you know
[x2]

He's coming to get you [x8]
His name is Vincent

I can't believe the way he's vibing me
With his mechanical arms and legs and feet
I can't believe the way he's vibing me
Can't you see this angry robot's got a problem with me

Wanna see his mechanical dance [x3]

I stand here all alone
All by myself
Oh my god
I haven't slept in days you know
[x2]
