Smiling in my sleep  
Feeling your warmth - your breath on my cheek  
Touching the highest place  
Reaching the earth and touching your face  
You are my rescue  
you are my fever

Falling in, Diving down, Going deeper  
Falling in, I'm falling into you  
Falling in, Diving down, Going deeper  
Falling in, I'm falling into you

Standing on the shore  
Out of my depth but starting to soar  
You are my haven  
You are my danger  
Experience a flying feeling  
Sure I've been there in my dreaming  
Floating over treetops  
Cause I'm lighter than the air  
Live a lifetime in one day  
Awake and I still feel that way  
Your sweetness tingles on my tongue  
It's just begun
