Should've known it wouldn't last long
Should've known there was something wrong
But I thought you would always be with me

I Miss You, I Miss You, I Miss You
Now I'm living in a different world
And I'm feeling like a different girl

Knocked the wind right out of my sails
Chilled all the sun right out of my days
And I'd thought you were there to rescue me
Shook all the earth right under my feet
Took all the faith out of my belief
But I'd thought you would always be with me
Should've known there was something wrong around
here.
