Little by little, step by step, I start to like you
Little by little, step by step, I want you to crave me
Like a crazy on the loose, a hunter with a noose
A madman on the doorstep, I've got to see you
Like the fire in the sky when I look you in the eye
Like water in a heatwave - I've got to have you

Infatuation. You're my infatuation
Do I do or do I don't - is this love or only hope?
Infatuation

In the heat of my mind I make you mine - it's my
obsession
But in the cool of the day it doesn't go my way - you're
my repression
The order is tall and I need to have it all - don't
disappoint me
If you look another way you better learn how to pray
My loving is a knifeblade - it's supposed to hurt this way

Infatuation. You're my infatuation
Everywhere you go - I'll be waiting there you know
Infatuation

Little by little, step by step - I feel you hate me
Little by little, step by step - go on torment me
Like a crazy on the loose, a hunter with a noose
A madman on the doorstep, I've got to see you
Like the fire in the sky when I look you in the eye
Like water in a heatwave - I'm thirsty for you

Infatuation. You're my infatuation
Now I'm closing the door - just can't take you anymore
Infatuation
