Hello
it's me again
a whole lot's changed
since i left and
i don't know i guess
i felt like checking in

surprise
you let it ring
well it's your turn to
leave me hanging
i don't care
i know you love it
when you see me call

i wonder who you're loving now
i'm guessing we won't work things out

you know what they say
you can't have it so you want it back
i'm way past that
believe me
if you could be in my life
like you've been on my mind
it'd be so easy

hello
it's me again
it's three days now
that you've been in my dreams
and i don't know, i guess
you've just been on my mind
i don't know, i guess
i think about you all the time

i wonder if she's much like me
i wonder if she's what you need

you know what they say
you can't have it so you want it back
i'm way past that
believe me

if you could be in my life

like you've been on my mind
it'd be so easy
i know i'm to blame
but it kills me that
i made you hate me
like you've erased me
and i know what they say
they say you'll be happier
better off without me

i'm sure it's hard to see me
i'm sure you don't believe a word
because you've heard it all before
and we're so far from where we were

(da da da da da dum)

goodbye
i'll let you go
i'll get back to life
and living solo
cause i know i need a few years on my own

you know what they say
you can't have it so you want it back
i'm way past that
believe me
if you could be in my life
like you've been on my mind
it'd be so easy
i know i'm to blame
but it kills me that
i made you hate me
like you've erased me
and i know what they say
they say you'll be happier
better off without me
