you're making plans  
you've moved in everything you have  
you're running fast  
can't help but feel like  
I've lost track  
of you

so much to say  
but we've said it now

oh Mr Johnson I'm sorry so sorry  
you've been breaking my heart  
you know i need you to prove to me  
this is the one you love  
the one you love  
the one you love  
so i can give it up  
oh so i can give it up  
i went away so i cant help but feel replaced  
this life you've made  
i wish you happiness  
for all your days  
so much to say  
but we've said enough
