Quiet lies beneath the blue moon
Couldn't say much less now could you?
It's on your mind
It's in your eyes
But you disguise it you're so childish (or Charming)

If it's not me you need
To sleep beside
If I'm not the thought that's always on your mind
If I'm not the reason why you dream about (or at night)
The love you'll never lose
Then who am I to you?

I'm awake but your still sleeping
Not some secret you've been keeping
You hardly see (or you're hard to see)
Missed a green'
Soon the sun will come and save me (or to save you)

If it's not me you need to sleep beside
If I'm no the love that's always on your mind
If not the reason you why dream about (or at night)
The love you'll never lose
Who am I to you?
I was here lying down (or I feel locked out)
My head so conflicted
Everything I am
I'm contradicted
I'm so caught up
I can't let you go
I need to know
I need to know

If it's not me you need to sleep beside
If I'm not the thought that's always on your mind
If it's not me you need to sleep beside
If I'm no the love that's always on your mind
If I'm no the reason why you dream at night about the
love you'll never loose
Then who am I to you

Who am I to you?
