I believe in you  
But if you don't believe in me  
I'll be leavin' you  
You better think about it

Whenever you'd call  
I would come running  
Really didn't matter  
For you I would pry baby  
'Cause that was my style baby  
Now you're acting all funny  
Callin your honey  
And kissin my buddy  
And dissin my gigs baby  
but that's how I live baby

I believe in you  
But if you don't believe in me  
I'll be leavin' you  
You better think about it

I know you got diamonds  
and pearls on your mind  
you know i'm on a crime  
but you can't wait baby  
(I'm) just tryin' to play safe baby  
You're working my nerves  
and I don't deserve  
I'm standing on the verge  
of getting it on baby  
listen to the words of this song baby

I believe in you  
But if you don't believe in me  
I'll be leavin' you  
You better think about it
