"Words To A Song"

Visit "[Words To A Song](#)" on MotoLyrics.com

Her eyes light up, like the stars in the night
To be with her makes me feel alright
I'm glad she's mine, She's my everything
She's never sad, I'd give her anything

Won't you help me please write the words to a song
Cause' I'm so afraid the words might come out wrong
Heaven only knows how much I love that girl
She means so much to me, she's my whole wide world
Cause I love that girl
She's my whole wide world tonight

If she should leave, I think I'd loose my mind
Cause loonely nights are all that would find
To feelher touch is Oh ! so Heavenly
Cause she's so fine, she's always on my mind

* REPEAT

Words to a song, simple words to a song
Words to a song, simple words to a song
