Run your mouth your no better then me  
Keep on talkin your gonna fuckin bleed  
The pain you feel you brought upon yourself  
Your useless go fuckin kill yourself

Your lungs begin to swell until they fuckin burst  
You flesh starts to melt away from your fuckin bones

Your exsistence is like a hammer to my head  
Your mouths been shut for eternity

Unbroken you can't stop us  
Were killin everything  
Fuck with us and find out  
Were wolves amongst the fuckin sheep

The bodies begin to stack up until they block out the  
sun  
No one can fuckin save you welcome to the life of  
death

They ignite on fire  
Screams of pain feel the air  
Massacre has new meaning  
No one will be left behind

Your gone  
We have buried you  
Your gone  
Go fuckin kill yourself
