Nothing grows. Nothing flows. You want in & isay no I
fuck up everything Thing i touch. A needy girl your
bloody crutch. Shine it up, spic & span before i cut
myself again. Ill show you what i mean. ill make you
beg & hurt and scream. You were just trying to bring
me down. You were just trying to bring me down.
(brown) Friction in my legs & arms. sooth me with yr
subtle charms. pick me up covered in dirt. do it fast you
wont get hurt. You were just trying to bring me down.
You were jsut trying to bring me down. (brown) You
were just trying to bring me down. You were just trying
to bring me down. (brown)
