I don't think that I can fight it  
Cos my body gets over excited  
Next to you  
And I find it kind of strange  
Cos I hardly even know you  
But you rush my heart in such a beautiful way

Every little thing you say  
Every little move you make  
I gotta watch my step or I'll do something I'll regret

Keep your love away from me  
Cos you know it could be dangerous  
There's no guarantee what you get from me  
Keep your heart away from me  
Cos you know that I am serious  
And I can't pretend that you're just my friend

It's a scary situation  
When you're drowning in temptation  
And your hands are tied  
But the chemistry's too strong  
To pretend there's nothing going on  
There's no escape you're always there on my mind

Did you really think I'd be  
Staring at you innocently  
You must be thinking on somebody else  
Someone just like yourself

Keep your love away from me  
Cos you know it could be dangerous  
There's no guarantee what you get from me  
Keep your heart away from me  
Cos you know that I am serious  
And I can't pretend that you're just my friend

Keep your love away from me  
Cos you know it could be dangerous  
There's no guarantee what you get from me  
Keep your heart away from me  
Cos you know that I am serious

And I can't pretend that you're just my friend

(And now)

I really think the time has come for me to be straight  
with you

(Tell you how it is, boy)

It's a charade, the part that I play

I don't wanna be confused with someone that I'm not

Keep your love away from me

Cos you know it could be dangerous

There's no guarantee what you get from me

Keep your heart away from me

Cos you know that I am serious

And I can't pretend that you're just my friend

(Repeat to Fade)
