To the S!

Where do you wanna go, when your life's in a mess?
Where do you wanna be, when your brain's under
stress?

Be what you can be, cause you can impress,
Down at Club S! (Club S, yeah!)

Take a ticket to your life and fly far from home,
You can take a chance, you won't be alone.
Be what you can be, cause you can impress.
Down at Club S!

C-L-U-B, place you want to be
C-L-U-B, place you want to be
C-L-U-B, place you want to be

Where do you wanna be, if you feel like a star?
We'll take you all the way, no matter how far.
There's a method in the madness, never the less,
Down at Club S!

Where do you wanna be, where words can't express?
Everybody knows that life can depress.
Come on to the place where you can impress,
Down at Club S! Yeah!

C-L-U-B, place you want to be
C-L-U-B, place you want to be
C-L-U-B, place you want to be
C-L-U-B, place you want to be
De le la la la de dum

The one and only, wonderful S Club!
