You never told me from the first time
I had to beg you not to leave
You never seemed to care the first time,
Now it's the last time you are walking out on me.

You've done enough for me to hate you
Expecting me to forgive you
I don't believe you'll change
I don't know where I went wrong
You only want me when I'm gone
You're not that smart and not so strong
You always want me
Wheeeen I'mmmm GONE

It's over, all over, soooo over
You'll never know
What does it take to make you believe?
Oh, oh, oh Uh Oh
How did we ever start?
You deserve a broken heart
Cry me a river
We're so through

People change and I'll forget you
(?)
Like a boost that I can't shake (?)
I feel so stupid when I look back
All the things that you lack
Reflected onto meeee

I don't know where I went wrong
You only want me when I'm gone
You're not that smart and not so strong
You always want me
Wheeeen I'mmmm GONE

It's over, all over, soooo over
You'll never know
What does it take to make you believe?
Oh, oh, oh Uh Oh
How did we ever start?
I don't deserve this broken heart

Cry me a river
We're so through

You never told me from the first time
(You said you were my friend)
I had to beg you not to leave
(I thought you were my friend)
You never seemed to care the first time
Now it's the last time you are walking out on
meeeeeeeeee

It's over, all over, soooo over
You'll never know
What does it take to make you believe?
Oh, oh, oh Uh Oh
How did we ever start?
You don't deserve my broken heart
Cry me a river
We're so through

Cry me a river
We're so through

Cry me a river
We're so through

I cry and now I'm over YOU.
