

## **S Club 7 "Natural"**

Visit "[Natural](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Loving you is not  
Just luck or illusion  
It's in the make-up of our DNA

It's not by chance  
We make the perfect solution  
Don't fight it baby  
You know that it's just destiny's way

Baby lovin' you  
Comes easily to me  
It's what I'm livin' for  
It's all in the chemistry

Baby lovin' you  
Is how it's meant to be  
It's something that is  
Oh so natural to me  
Natural, oh baby, baby

We got the answers  
But there's no explanation  
We got each other baby  
Come what may

It's in the science  
It's genetically proven  
'Cos when you touch me  
The reaction it just blows me away

Baby lovin' you  
Comes easily to me  
It's what I'm livin' for  
It's all in the chemistry

Baby lovin' you  
Is how it's meant to be  
It's something that is  
Oh so natural to me  
Natural, oh baby, baby

Turn off the light

Lay your head next to mine  
Take it slowly  
A step at a time

C'mon get close, closer to me  
It's oh so natural  
It's oh so easy to see

Baby lovin' you  
Comes easily to me  
It's what I'm livin' for  
It's all in the chemistry

Baby lovin' you  
Is how it's meant to be  
It's something that is  
Oh so natural to me

Baby lovin' you  
Comes easily to me  
It's what I'm livin' for  
It's all in the chemistry

Baby lovin' you  
Is how it's meant to be  
It's something that is  
Oh so natural to me

Baby lovin' you  
Comes easily to me  
It's what I'm livin' for  
It's all in the chemistry

Baby lovin' you  
Is how it's meant to be  
It's something that is  
Oh so natural to me
