I never could imagine, life without you  
From the moment you walked into my world  
Never knew how long a loving flame could burn  
But losing you has forced me to learn  
That we can't change the way we feel inside  
And every try at love never turns out right  
We both know it's better if we just let it go  
So let's have

Chorus:

One last kiss  
One last touch  
One last tender moment between us  
One last dance  
To our first song  
While pretending there's nothing wrong  
Let's stay here for awhile and  
Cherish every moment we're in denial  
We both know  
Its better if we just let it go

Everytime I try to take a stand at all  
I see your face again and I fall  
In the middle of the night there's the scent of a rose  
The smell of your perfume I suppose  
But we can't change the way we feel inside  
And every try at love never turns out right  
We both know it's better if we just let it go  
So let's have

One last kiss  
One last touch  
One last tender moment between us  
One last dance  
To our first song  
While pretending there's nothing wrong  
Let's stay here for awhile and  
Cherish every moment we're in denial  
We both know  
Its better if we just let it go

Baby if we met each other under a different sky  
Maybe then things would be much better between you  
and I  
We could always hold on to this one special thing we  
share  
But it would be too much for us to bear  
So let's have

One last kiss  
One last touch  
One last tender moment between us  
One last dance  
To our first song  
While pretending there's nothing wrong  
Let's stay here for awhile and  
Cherish every moment we're in denial  
We both know  
It's better if we just let it go

We both know  
It's better if we just let it go
