Touchdown  
Ready for some action  
So cool  
Got the whole summer to burn  
It's so  
It's so easy when you are  
Far from home and all alone  
Uptown  
Trying hard to find love  
Lowdown  
All the city's full of lessons to learn  
Not so  
Not so easy when you are  
Far from home and all alone

Then I turned around and  
Suddenly you were  
Suddenly you were there for me

Aint nobody gonna come between us  
Aint nobody gonna tear us apart  
No more wondering how  
Cos we got each other now  
We got each other now  
We got each other now

Touchdown  
Ready for some action  
So cool  
Got the whole summer to burn  
So so  
It's so easy when you are  
Far from home and all alone

Done away you were  
Then I swear you were  
Suddenly you were there for me and

Aint nobody gonna come between us  
Aint nobody gonna tear us apart  
No more wondering how  
Cos we got each other now

We got each other now  
We got each other now  
Aint nobody gonna come between us  
Aint nobody gonna tear us apart  
No more wondering how  
Cos we got each other now  
We got each other now  
We got each other now

We got each other now  
We got each other now  
We got each other now  
We got each other now

Aint nobody gonna come between us  
Aint nobody gonna tear us apart  
No more wondering how  
Cos we got each other now  
We got each other now  
We got each other now

Aint nobody gonna come between us  
Aint nobody gonna tear us apart  
No more wondering how  
Cos we got each other now  
We got each other now  
We got each other now

Aint nobody gonna come between us  
Aint nobody gonna tear us apart  
No more wondering how  
Cos we got each other now  
We got each other now  
We got each other now

We got each other now  
We got each other now  
We got each other now  
We got each other now

(Repeat until fade)
