You are all I need to get me through (get me through
now baby)
Like a falling star I fell for you (I fell for you)

Sweet anticipation is giving me the butterflies
And my heartbeat's racing cause loving you is beautiful
And you're so irresistible
So don't stop, what you doing baby?
So good, and it drives me crazy
One touch, I'm in heaven, yeah
Cause loving you, so beautiful baby, cause

You are all I need to get me through (get me through
now baby)
Like a falling star I fell for you (I fell for you)
You have taught me how to love
An angel sent from high above
And now I know that all I need is you
Cause I need you and you need me
And I will always be forever

I thought I knew what love was, I always ended up in
tears
It's just the way my world was, until you walked into my
life
It's something that I just can't hide
Real love has come my way
And I know that it's here to stay
And it feels like never before
Cause loving you is so beautiful baby, cause

You are all I need to get me through (get me through
now baby)
Like a falling star I fell for you (I fell for you)
You have taught me how to love
An angel sent from high above
And now I know that all I need is you
Cause I need you and you need me
And I will always be together
Cause I need you and you need me
And I will always be forever

You're my inspiration, my world just seems a brighter
place
I just wanna tell you I've never ever felt this way
I never thought I'd see the day
Real love has come my way
And I know that it's here to stay
And it feels like never before
Cause loving you is so beautiful baby, cause

You are all I need to get me through (get me through
now baby)
Like a falling star I fell for you (I fell for you)
You have taught me how to love
An angel sent from high above
And now I know that all I need is you
You are all I need to get me through (get me through
now baby)
Like a falling star I fell for you (I fell for you)
You have taught me how to love
An angel sent from high above
(fade out)
