"All Over The World"

Visit "[All Over The World](#)" on MotoLyrics.com

The world is waking up
To the light of a new found love
It's ringing in our ears
Like the sound of a thousand drums
It's burning up the sky like the setting of the sun
A melody of love

All over the world let freedom reign
Our God has risen from the grave
And death He overcame
All over the world let freedom reign
Our God has risen from the grave,
So forever we will sing - all over the world

My heart has come alive
In the light of Your saving grace
It's taking over me
Like the rushing of a wave
It's beating in my heart like a rushing hurricane
A symphony of grace

All over the world let freedom reign
Our God has risen from the grave
And death He overcame
All over the world let freedom reign
Our God has risen from the grave,
So forever we will sing - all over the world
All over the world

All over the world let freedom reign
Our God has risen from the grave
And death He overcame
All over the world let freedom reign
Our God has risen from the grave,
So forever we will sing - all over the world
