Make contact  
Riding in a spaceship 1984  
Picking up a signal  
Never heard before

I Wanna be your lover  
I Wanna be your lover  
I Wanna be your lover  
Not just be your friend

I Wanna be your lover  
I Wanna be your lover  
I Wanna be your lover  
Not just be your friend

Ground control's excited  
Im here all alone  
Alien transmissin  
Chills me to the bone  
Outside in the darkness  
Somthing waits fore me  
Now I see it's picture  
Forming on TV

I Wanna be your lover  
I Wanna be your lover  
I Wanna be your lover  
Not just be your friend

I Wanna be your lover  
I Wanna be your lover  
I Wanna be your lover  
Not just be your friend

...

I Wanna be your lover  
I Wanna be your lover  
I Wanna be your lover  
Not just be your friend

Whats this thing before me  
From the depths of space  
Blue and green and slimey  
It ain't got no face  
Get me back to Huston  
Get me out of here  
Voices on the speakers  
Whisper in my ear

I Wanna be your lover  
I Wanna be your lover  
I Wanna be your lover  
Not just be your friend

I Wanna be your lover  
I Wanna be your lover  
I Wanna be your lover  
Not just be your friend

Wanna be your lover  
Wanna be your lover  
Wanna be your lover  
Not just be your friend
