Just take off all your clothes
and throw them into the fire
this city is burning down tonight
come tonight

We'll live just like animals
as naked as we were born
this fire is setting us to sea
come to me

Everything is happening,
everyone is clapping
(For no one reason)
Nothing ever ending
Everything is ending
(and it seems to be the perfect thing)
Everything is ending
Nothing ever ending
Everybody sing bababababababa
(take a good look around babababa)

There's nothing that we could do
To keep it from going down
This boat may not make it back alive
but we'll survive

We'll swim to a desert aisle
And live off what we can find
The earth and the sun just might collide
But we'll be fine

Everything is happening,
everyone is clapping
(For no one reason)
Nothing ever ending
Everything is ending
(and it seems to be the perfect thing)
Everything is ending
Nothing ever ending
Everybody sing bababababababa
(take a good look around babababa)

Everything is happening,
everyone is clapping
(For no one reason)
Nothing ever ending
Everything is ending
(and it seems to be the perfect thing)
Everything is ending
Nothing ever ending
Everybody sing bababababababa
(take a good look around babababa)

That was ok right?
Yeah that was ok
