Oh my children  
Oh my loves  
You are not alone  
I must go  
I'll miss you so  
My time has finally come

Oh my lovers  
Oh my lifes  
Keep me in your minds  
Don't despair  
Don't chase the air  
Where we once lived together

I have no regrets for anything I've done  
I feel like I've lived as good as anyone  
Remember me, remember me, as best you can  
So I might live, outlive my lifespan

Here I will lie  
From where I sprung  
The circle is completed  
The Earthen form  
How I transform  
And now I am defeated

I have no regrets for anything I've done  
I feel like I've lived as good as anyone  
Remember me, remember me, as best you can  
So I might live, outlive my lifespan
