You took me up , drew me in
Like a moth into your flam
Put your jinx in a deadly kiss
Your body locked me down in chains
Didn't read the danger signs
'Till you crept into my mind
Made me believe you were so in love
I was mesmerized

Fell Down to earth now baby
I heard my wake up call
You're not a high I can't get off

(Chorus)

Too little too late girl
Didn't know what you had 'till it's gone
(Don't tell me you're sorry now)
Too little Too late girl
Can't get back what's already lost
Now you're alone

I still see your reflection in
A corner of my head
You're the tainted mirror image
That my heart has to reject
So I've gotta keep my distance
When you tell me you can change
You can't burn me
With the heat of your love
Cos I've put it in the shade

(bridge)

Nothing you can do can phase me
Since I got my wake-up call
You can't do your damage like before

(Chorus)

Can't turn back the clock
Can't make momentum stop
And everytime i look at you
I hesitate

I get a trigger in my mind
That mekes me rewind
And remember how you blew my heart away

Too little too late girl
Didn't know what you had 'till it's gone (so gone)
Too little too late girl
Can't get back what already lost

(come down to me)
Comeon girl
Too little too late girl
Didn't know what you had 'till it's gone
(Don't tell me you're sorry now)
Too little Too late girl
Can't get back what's already lost
Now you're alone

Too little too late girl
Didn't know what you had 'till it's gone
(Don't tell me you're sorry now)
Too little too late girl
Can't get back what's already lost
Now you're alone.
