

S Club 8 (S Club Juniors) "Friends"

Visit "[Friends](#)" on MotoLyrics.com

I have to admit it's true my life would drown with you
you're always around
never make a bad sound i'm so pleased that i found
you
A friend like you that is always true no matter what i do
everything depends on
you
I was only young so was you we went together like
throat and tounge
A friend like you that is always true no matter what i do
everything depends on
you
I wanna tell you something now please stay around-d-
d-d-d
I wanna love you like a friend hope our friendship never
ends
A friend like you what is always true no matter what i do
everything depends on
you a friend like you that is always true no matter what i
do everything
depends on you
