You got the home
You got the life
You got the mid-size car and a kid and a wife
You got the medals
You got the call
Now you're going to a foreign land to fight in a war

Cause we're running, running, running fast
Running on a fast track
Going, going, nowhere fast, exclamation

Cause we're running, running, running fast
Running on a fast track
Going, going, nowhere fast, exclamation

You got your face paint
You got your orders
You got your AK-47
Driving through the desert

You see the man
With the bomb
On his back
It goes BOOM BABY BOOM

Channel news
At 11
Local teen gets shot, down in Iraq
Its so tragic
Its so tragic
He's coming home in a casket, home in a casket

Cause we're running, running, running fast
Running on a fast track
Going, going, nowhere fast, exclamation

Running, running, running fast
Running on a fast track
Going, going, nowhere fast, exclamation
